

Racquetball 2002 - 2003

E-FORCE

Highlights: New Launch Pad Technology. 38% more stringbed deflection due to elimination of deflection-constraining cross-strings in the throat, combined with improved Maximum LongString Technology (strings extend full 22"-length and 10.5"-width of racquet) and the new Wishbone Frame (a 3-part fin in the throat that stiffens the frame, allowing cross-string elimination).

Launch Pad Bedlam 150

Headsize (sq in.)	107
Length (in.)	22
Weight (gm)	179.3
Balance (cm)	28.75
Balance (in.)	11.32
Swingweight	119
Pattern (MxC)	14x18
X-section (mm)	23.2-24.1
Price	\$230

Launch Pad Bedlam 170

Headsize (sq in.)	107
Length (in.)	22
Weight (gm)	197.9
Balance (cm)	29.25
Balance (in.)	11.52
Swingweight	132
Pattern (MxC)	14x18
X-section (mm)	22.8-24.2
Price	\$220

Launch Pad Bedlam 190

Headsize (sq in.)	107
Length (in.)	22
Weight (gm)	214.5
Balance (cm)	29.00
Balance (in.)	11.42
Swingweight	140
Pattern (MxC)	14x18
X-section (mm)	23.4-24.8
Price	\$200

Launch Pad Judgement 165

Headsize (sq in.)	108
Length (in.)	22
Weight (gm)	194.3
Balance (cm)	29.5
Balance (in.)	11.61
Swingweight	132
Pattern (MxC)	14x18
X-section (mm)	23.7-23.9
Price	\$250

Launch Pad Judgement 175

Headsize (sq in.)	108
Length (in.)	22
Weight (gm)	201.7
Balance (cm)	29.5
Balance (in.)	11.61
Swingweight	137
Pattern (MxC)	14x18
X-section (mm)	23.0-24.4
Price	\$240

Launch Pad Judgement 195

Headsize (sq in.)	108
Length (in.)	22
Weight (gm)	220.5
Balance (cm)	28
Balance (in.)	11.02
Swingweight	135
Pattern (MxC)	14x18
X-section (mm)	23.4-24.3
Price	\$210

EKTELON

Highlights: PowerLock Technology in More Performance racquets eliminates drilled holes, delivering extra stiffness and fiber integrity, as well as Direct Contact without grommets for livlier stringbed. The Air+ Comfort handle has four air-filled quadrants that move independently for shock absorption and grip ventilation. The red cross dampener quiets frame vibrations.

MORE Attitude

Headsize (sq in.)	104

Price	\$85

Unique

WILSON

Highlights: Triad Technology. The racquet head and the handle are designed as separate components. They never touch, but are buffered by Iso-Zorb, a shock and vibration absorbing polymer. This combination isolates shock in the head. The head meanwhile maintains its power and stiffness with Hyper Carbon material and Hammer design. The new Vue-Tack grip is a clear, tacky grip.

Triad 160

Headsize (sq in.)	106
Length (in.)	22
Weight (gm)	189.6

X-section (mm)	19.5-21.2
Price	\$200

Continued on page 10

HEAD

Highlights: *IntelligenceX and Intelligence Technology: use of piezoelectric fibers (intellifiber) that produce electricity when bent, and that stiffen when exposed to electricity. Impact causes an electric impulse which, in turn, produces a counter force that stiffens the fibers against further bending — both longitudinally (intelligence) and torsionally (intelligenceX). This occurs in 1 ms while the ball is still on the strings.*
